

Agenda
Further Discussion on Available Data on Priority TSCA Chemicals
EPA & Automakers

May 15, 2018
1201 Constitution Ave, NW, Room 4121C

EOP / Ex. 6

- Order and introductions (All)
- Background (EPA)
 - Section 6(h)
 - Purpose of discussions with industry
 - Potential uses of data
- Questions & discussion (All)
 - All Chemicals
 - Description of data
 - Assemblies and parts
(is it possible to have pictures, diagrams, or illustrations?)
 - Interpreting percentages
 - Asbestos
 - Import, processing and distribution of asbestos containing gaskets
 - PIP (3:1)
 - Industry standards
 - Supply chain and manufacturing process
 - Construction materials of replacement part sub-components containing PIP (3:1)
 - wide ranges of weight %, and relationship to functional efficacy
 - Functional purposes of target chemicals
 - DecaBDE
 - Replacement Parts
 - Import and manufacture
 - Timeline for continued production, given proposed phase out
 - Construction materials of replacement part sub-components containing decaBDE
 - Wide ranges of weight %, and relationship to functional efficacy
 - HBCD
 - Replacement parts
 - Annual amounts of HBCD used annually
 - Imported and manufactured
 - Parts containing EPS or XPS, high intensity polystyrene (HIPS), electrical or electronic components or automotive textiles.
 - ranges of weight % (less than 1%), and relationship to functional efficacy
- Wrap up and follow up actions (All)

Automakers Alliance Attendees

Stacy Tatman

EPA Attendees

Joel Wolf

Doug Parsons

Ingrid Feustel

Sue Slotnick

Stephanie Jarmul

Cindy Wheeler

Tim Lehman

Robert Courtnage
